Dear Colleague:

NRMCA’s Annual Convention is an event you don’t want to miss. There is no better venue to explore the economic and business trends in the industry and network with your peers. You’ll take away strategies and ideas that you can put to work right away in your operations. You’ll hear from experts about the sustainability movement and financial trends. And you’ll connect with leaders in the industry.

This year our speakers include Ken Simonson, chief economist for Associated General Contractors of America. We’ll get his take on current economic conditions and look ahead for strategies to face the coming challenges. We’ll also hear from Francesco Biasioli, renowned civil engineer and secretary general of the European Ready Mixed Concrete Association about the sustainability movement in the European markets. Finally, we will learn about Environmental Product Declarations (EPDs) and their future for our industry from Kirsten Ritchie, Director of Sustainable Design for Gensler, a global architecture and design firm. We’ll also conduct our annual Members’ Meeting and celebrate industry achievement at the annual Awards Breakfast, always a highlight of every convention.

Your trip to Vegas won’t be complete until you attend the 2014 CONEXPO-CON/AGG Show immediately following our Convention. “The Show” highlights the best the construction industry has to offer. As a proud co-sponsor of CONEXPO-CON/AGG, we invite you to visit our booth in the South Hall to learn even more about the work NRMCA is doing on behalf of the ready mixed concrete industry. Your convention registration includes registration for CONEXPO-CON/AGG, and as an NRMCA delegate, you can get discounts on show educational seminars as well.

I encourage you to take a look at the program outlined on the following pages and register today for this must-attend industry event!

Sincerely,

Robert Garbini, P.E.
President, National Ready Mixed Concrete Association

We’re going green by providing this brochure online...

In an effort to make NRMCA meetings more sustainable, NRMCA has enacted initiatives to help reduce our carbon footprint, including a reduction in the printing and mailing of this brochure.

If you would like a copy mailed to you please contact us at (888) 846-7622 or meetings@nrmca.org.

We hope you will join us in our “green” efforts by registering for this event online at www.nrmca.org.
Keynote Speakers

Ken Simonson

Associated General Contractors of America (AGC) Economist

Kenneth D. Simonson has been chief economist for the Associated General Contractors of America, the leading national construction trade association, since 2001. He provides insight into the economy and what it implies for construction and related industries through frequent media interviews, presentations and The Data DIgest, his weekly one-page e-newsletter that goes to 47,000 subscribers.

Ken has 40 years of experience analyzing, advocating and communicating about economic and tax issues. Before joining AGC, he was senior economic advisor in the U.S. Small Business Administration's Office of Advocacy. Earlier, he was vice president and chief economist for the American Trucking Association. He also worked with the President's Commission on Industrial Competitiveness, the U.S. Chamber of Commerce, the Federal Home Loan Bank Board and an economic consulting firm.

Ken is the 2012-13 president of the National Association for Business Economics, a 2,400 member professional organization for people who use economics in their jobs. He was president of the National Economists Club, now the largest NABE chapter, in 2000. He is co-director of the Tax Economists Forum, a professional meeting group he co-founded in 1982; a former board member of the National Tax Association and Community Tax Aid; and a current board member of the Jewish Council for the Aging of Greater Washington.

Ken has a BA in economics from the University of Chicago, an MA from Northwestern University, and he has taken advanced graduate courses at the Université de Paris, Johns Hopkins and Georgetown universities.

Francesco Biasioli

Sustainability and Construction Materials: Myths, Facts and Fallacies

A civil engineer until his retirement in 2009, he was research professor of building materials and structural engineering at the Department of Structural, Geotechnical Building and Engineering, Polytechnic of Turin, Italy. An expert in concrete, reinforced concrete and earthquake engineering matters, since 1975 he has been involved on standards and codes assessment, evaluation and implementation, and training of professionals. He is the author of several publications on concrete-related issues and of books on the design of concrete structures, including Eurocodes 2 – Design of Concrete Structures and 8 – Design of Structures for Earthquake Resistance.

Since 1974 he has served on many European technical committees and is a member of CEN Committees TC104 - Concrete and TC250/SC2 - Eurocodes. Currently, he is involved in the working group charged with revising Eurocode 2. Since 1997 he has been secretary general of the European Ready Mixed Concrete Organisation which is based in Brussels.

Kirsten Ritchie

Information Transparency: A Roadmap to Improving Health and Reducing Carbon in our Built Environment

Kirsten Ritchie is a principal and director of sustainable design for Gensler, a global architecture and design firm. A recognized expert in sustainability rating systems (including LEED and CHPS), Kirsten has also played a pivotal role in the development of numerous building product standards such as SCS Indoor Advantage(TM), FloorScore®, level(TM), NSF sustainable flooring standards (140 and 332) and the newly released Health Product Declaration (HPD). She is also actively involved in the development and implementation of sustainability standards and guidelines at the organizational level, focused on improving the environmental performance and occupant well-being of global real estate portfolios and large mixed use developments.

She will share with our group her expert insights into the future of Environmental Product Declarations (EPDs) and Health Product Declarations (HPDs) and their specific impact on the construction and concrete industries.

Ms. Ritchie is a LEED® AP+ (O+M) and a licensed professional engineer. She holds a bachelor of science in civil engineering from the University of California, Berkeley and a master of science in civil engineering from California State University, San Jose. She serves on the Board of Directors and Material and Resources Technical Advisory Group (MR-TAG) of the US Green Building Council. She is also an advisor to the Ecological Building Network, the Health Product Collaborative and the Responsible Purchasing Network.

The Cosmopolitan of Las Vegas offers a variety of restaurants, activities and amenities!

It’s rare to find a culture-minded hotel in Las Vegas—especially smack-dab in the heart of the Strip. The 2,995 room, dual-tower Cosmopolitan offers Sin City thrills—a 100,000 square-foot casino, a 30 room spa, a dozen boutiques, eight bars, and the celeb-sanctum Marquee nightclub—without sacrificing sophistication. Walls of the chic David Rockwell–designed rooms are lined with books, and throughout the hotel seven Art-o-mat machines supply original artwork—even the parking garage floors are covered in colorful murals. In addition to 13 first-rate restaurants—including outposts of Scarpetta and Blue Ribbon Sushi Bar & Grill—there are plenty of lesser-known foodie finds: ask about the secret pizza parlor or head to the new Neapolitan poolside bar for alcohol-infused ice cream shakes.

Room to Book:
Watch the Bellagio’s dancing fountain light show from a north-facing Wrap-Around Terrace Suite. Then grab a Phaidon tome and settle into the hand-dyed velvet couch pillows for a welcome break from Sin City’s hedonist attractions.

Insider Tip:
Jaleo’s Spanish restaurant-within-a-restaurant, é by josé andrés, has seating only for eight. Make reservations far in advance.

Las Vegas Strip Shopping
The Cosmopolitan brings a new kind of Las Vegas shopping experience with nine unique retail brands from the most stylish shopping districts on the planet.

Las Vegas Strip Pools
The Cosmopolitan offers three distinct pool experiences with views unlike any other in Vegas.

Restaurants
Blue Ribbon Sushi Bar & Grill is an award-winning and spectacular sushi citadel, an exquisite Japanese steak house and almost everything in between. China Poblano: Noodles and tacos come together in a festive, stylish setting. Comme Ça is a lively and modern Las Vegas French brasserie with an emphasis on quality ingredients. D.O.C.G. is a casual rustic Italian restaurant featuring pizza, pasta, steaks and chops, in addition to a large selection of Italian wines. Estiatorio Milos: Featuring a one-of-a-kind terrace dining experience, guests can enjoy authentic tastes of Greece while overlooking the gorgeous Las Vegas skyline. Holsteins: The menu features specialty burgers, house-made sausage, riffs on traditional American snacks and appetizers, as well as a wide variety of shakes and sides.

Jaleo was one of the country’s first successful tapas restaurants, setting the standard for Spanish cuisine in the U.S. for almost two decades. Overlook Grill: Adjacent to the Boulevard Pool, it’s an indoor/outdoor dining scene that’s laid back with a hint of vintage glam, for breakfast or lunch. Scarpetta is a modern Italian restaurant by award-winning chef Scott Conant. STK is a celebrity hotspot that breaks with tradition, offering a flirty, feminine take on the classic American steakhouse. The Henry: Old-school revamped classics. Va Bene Caffé is a polished, modern Las Vegas Italian coffee bar. Wicked Spoon: A bustling culinary food hall that delivers well-crafted original selections for every appetite.

Amenities
Sahra Spa & Hammam
Relax and rejuvenate at Sahra Spa & Hammam, inspired by the desert.

Violet Hour Salon | Hair | Nails | Beauty
Violet Hour is a place of vibrant culture, music and decor. Whether you’re after a dose of glam to prepare for an evening out or a simple pick-me-up, our master stylists provide a diverse and continuously fresh perspective to bring out your best.
