

**National Ready Mixed Concrete Association  
Continuing Education Series**

**LEED Green Building Rating System and Concrete**

---

**Program Title:** LEED Green Building Rating System and Concrete

**Program Number:** CIP201

**Provider Name:** National Ready Mixed Concrete Association, or NRMCA resource partner  
(usually a state ready mixed concrete association)

**Length:** 1 hour

**Credits:** 1 LU Hours (for architects), 1 PDH or 0.1 CEUs (for engineers)

**Health, Safety and Welfare:** Yes

---

**Learning Objectives:** This program provides an introduction to the LEED Green Building Rating System and a detailed description of how concrete plays an integral role in green building design and construction. At the end of this program, participants will understand how ready mixed concrete can be used to minimize environmental impact of construction. They will learn how concrete is made and how architects, engineers, contractors and ready mixed concrete producers can work together to optimize environmental performance.

**Facilitator Qualifications:** All NRMCA program facilitators are trained to deliver this program under the AIA/CES guidelines. They have considerable experience in concrete construction and are qualified to provide technical support on design and construction issues.

**Delivery options and cost to participants:** The cost for this program will vary depending on the method of delivery. There typically is no charge for on-site office presentations, although expense reimbursement is sometimes requested. Some continuing education programs can be delivered with professional learning credits via live Webinars; if onsite learning cannot be arranged, participation fees may be waived for these Webinars. Other methods of delivery including at conferences and association meetings may require a nominal fee.

**Audio/Visuals Required:** Electricity and a projector screen (the CES facilitator will provide a laptop computer and LCD projector.)

**Please note:** NRMCA would like see that all professionals interested in these learning programs have the opportunity to participate in them, but we cannot guarantee that onsite presentations can be arranged for all requests.
