PURPOSE AND BACKGROUND

This course for the ready mixed concrete industry teaches its participants about OSHA SAFETY compliance. It begins with why safety is so important and details the reasons why an effective safety program actually saves money through loss prevention and control. Participants learn about the new Silica Rule, electrical safety, machine guarding, fall protection, hazard communication, confined spaces, personal protective equipment, fire fighting and evacuation, chute handling, fleet safety, pre-trip inspection and more.

Do you know all the details concerning your company's responsibilities when it comes to OSHA regulations and filing OSHA forms? If not...attend this great session, which includes two & 1/2 days of learning about safety in the ready mixed concrete industry, including actual hands on experience participating in a plant safety audit.

A comprehensive program:

Day 1:

- Welcoming Remarks
- Introduction to OSHA
- Safety and Health Programs
- Break
- Electrical Exercise
- Backing Accident Prevention
- Lunch
- Walking and Working Surfaces
- Hazard Communication
- Break
