

**National Ready Mixed Concrete Association
Continuing Education Series**

Concrete Solutions to Storm Water Runoff

Program Title: Concrete Solutions to Storm Water Runoff

Program Number: PCP101

Provider Name: National Ready Mixed Concrete Association, or NRMCA resource partner
(usually a state ready mixed concrete association)

Length: 1 hour

Credits: 1 LU Hours (for architects), 1 PDH or 0.1 CEUs (for engineers)

Health, Safety and Welfare: Yes

Learning Objectives: This program provides an introduction to pervious concrete pavement as a solution to reducing storm water runoff from building sites. Attendees will learn what pervious concrete pavement is, its engineering properties and construction techniques. Pervious concrete pavement is considered a best management practices by EPA and is a recommended solution to reducing runoff in the LEED Green Building Rating System. Pervious concrete pavement is ideal for parking areas, sidewalks, patios, tennis courts, roads and driveways.

Facilitator Qualifications: All NRMCA program facilitators are trained to deliver this program under the AIA/CES guidelines. They have considerable experience in concrete construction and are qualified to provide technical support on design and construction issues.

Delivery options and cost to participants: The cost for this program will vary depending on the method of delivery. There typically is no charge for on-site office presentations, although expense reimbursement is sometimes requested. Some continuing education programs can be delivered with professional learning credits via live Webinars; if onsite learning cannot be arranged, participation fees may be waived for these Webinars. Other methods of delivery including at conferences and association meetings may require a nominal fee.

Audio/Visuals Required: Electricity and a projector screen (the CES facilitator will provide a laptop computer and LCD projector.)

Please note: NRMCA would like see that all professionals interested in these learning programs have the opportunity to participate in them, but we cannot guarantee that onsite presentations can be arranged for all requests.
