

Together we can do more.

NRMCA COMMITTEES *Members Making the Difference*

The National Ready Mixed Concrete Association is built upon the strength of its members. Through NRMCA's standing committees members like you contribute to the future success of the association and the ready mixed concrete industry at large. It's through this committee structure that NRMCA gauges the needs of members and the industry, fulfills those needs and plans for the future.

Every member company should get its professionals involved in the process. Not only will the association be stronger, but individuals will also have the opportunity to hone career skills that will benefit their companies.

Joining an NRMCA standing committee is easy. Simply select the committee you wish to join, provide your contact information, and return this form to the committee liaison. You can fax this form to (301) 585-4219, or contact the committee liaison by phone or email.

Business Administration Committee (BAC/IT) Information Technology Task Group

Committee Liaison: *Michael Olivarri* 📞 (240) 485-1130

Join this committee

✉ molivarri@nrmca.org

The BAC gathers information on new developments and techniques in the area of financial and administrative management, designs programs for industry personnel in these areas and provides a forum through which members can exchange ideas. This committee also manages the collection of data related to the operation of the industry and industry business practices. The BAC is actively involved in investigating insurance options for the ready mixed concrete industry, developing financial reporting standards for the industry and gathering and disseminating information on compensation trends.

While the BAC sharpens financial management and program design, the IT Task Group works to hone information technology development. The IT Task Group monitors the development and availability of new information technologies and disseminates information to NRMCA members about how these new technologies can be integrated into ready mixed concrete operations. For more information on the work the BAC and IT Task Group are doing on behalf of the industry, contact staff liaison Michael Olivarri.

Building Codes and Sustainability Committee

Committee Liaison: *Lionel Lemay, P.E, S.E.* ☎ ((847) 918-7101

Join this committee

✉ llemay@nrmca.org

The scope of the committee is to coordinate building code and sustainability standards activities of NRMCA. The committee works with other NRMCA committees, State Affiliates, and national allies to support and promulgate the adoption of buildings codes where none exist and helps develop and support amendments to local and national codes where they are deficient. The committee reviews and submits recommendations to the International Code Council (ICC), National Fire Protection Association (NFPA) and other code development organizations. The committee actively interfaces with other NRMCA committees, State Affiliates, and national allies to assist in the technical aspects of sustainability standards including United States Green Building Council (USGBC) LEED Green Building Rating System, Green Building Initiative (GBI) Green Globes and other sustainability standards. The committee develops and reviews technical publications on building codes and sustainability and implements training for members, designers and contractors related to building codes and sustainability. For more information on how to propagate building codes, contact staff liaison Lionel Lemay.

Concrete Promotion Committee (CPC)

Committee Liaison: Glenn Oschenreiter ☎ (240) 485-1140

Join this committee

✉ glenn@nrmca.org

The CPC is working hard to make concrete the construction material of choice! Committee members are actively involved in designing and maintaining a unified, on-going, nationally directed promotion program for the ready mixed concrete industry. The CPC is working to provide tools and training to local promotion teams, expand a national promotion program targeting large national accounts and reaching out to specifiers and contractors with the good news about concrete. For more information on the work CPC is doing to make concrete the construction material of choice, contact staff liaison Glenn Ochsenreiter.

Educational Activities Committee (EAC)

Committee Liaison: Eileen Dickson ☎ (240) 485-1164

Join this committee

✉ edickson@nrmca.org

Working in conjunction with other construction materials organizations and NRMCA committees, the EAC is committed to providing quality educational programs for the ready mixed concrete industry. The EAC works to insure that premium programs are available to all facets of the industry, from drivers to sales professionals to the future leaders of the industry. For more information on the programs the EAC is developing, contact staff liaison Eileen Dickson.

Government Affairs Committee (GAC)

Committee Liaison: Kerri Leininger ☎ (240) 485-1149

Join this committee

✉ kleininger@nrmca.org

NRMCA is the only trade association to represent your interests as a ready mixed concrete producer on the national level. The GAC is actively engaged in promoting federal legislation that will increase infrastructure spending, relieve onerous regulations and reduce the tax burdens imposed on the industry. Committee members work to formulate association policy, provide specific industry involvement with statements and testimony presented before congressional committees and federal regulatory bodies, and engages in grass-roots political activities. For more information on the critical work the GAC is doing on behalf of the industry, contact staff liaison Tom Carter.

Legal Activities Committee

Staff Liaison: Kerri Leininger ☎ (240) 485-1149

Join this committee

✉ kleininger@nrmca.org

The NRMCA Legal Activities Committee is responsible for providing a vehicle, consistent with antitrust and other applicable legal requirements, to allow the discussion of legal issues and appropriate exchange of information concerning the entire ready mixed concrete industry, as well as overseeing the establishment and operation of common interest defense groups of those members wishing to participate in them.

Operations, Environmental & Safety Committee (OES)

Committee Liaison: Gary Mullings ☎ (240) 485-1161

Join this committee

✉ gmullings@nrmca.org

OES provides a forum for the interchange of ideas relating to operations, equipment maintenance, fleet issues, safety, environmental compliance, and production and distribution. OES members recommend policy on safety and environmental issues, reward excellence in the industry through its awards program and conduct surveys that help producers benchmark their operations. For more information on the OES Committee, contact staff liaison Gary Mullings.

Research, Engineering & Standards Committee (RES)

Committee Liaison: Colin Lobo ☎ (240) 485-1130

Join this committee

✉ clobo@nrmca.org

The RES Committee works in cooperation with standardization bodies such as ACI, ASTM, AASHTO and other agencies in the development of the codes and standards that are the backbone of the ready mixed concrete industry. RES reviews and communicates standards to the industry and provides educational programs to keep the industry informed. For more information on how the RES Committee is charting the future of concrete, contact staff liaison Colin Lobo.
