Course follows all federal anti-trust guidelines.

This course is part of NRMCA's Seminars, Training and Education Programs, STEPS®, and earns you credit towards becoming a CCPf, a Certified Concrete Professional. The highest professional designation in the industry.

Why attend? Never has it been more critical for your plant manager operator to be at the top of his/her game! Efficiency and productivity impact every penny in this tight economy! Plant managers serve a vital function, with responsibilities that affect issues from regulatory compliance to product quality, safety and profitability. NRMCA's certification program helps you make sure that they are up to speed on product knowledge, plant safety, environmental regulations, plant operations and ready mixed concrete industry business principles. This course establishes the basic industry standard, measured through certification. This course earns 24 credits towards a CCPf certification in the Operations and Production career track. The CCPf certification is the highest professional designation in the industry. For more information, visit www.nrmca.org/steps
