

# 2025 GRMCA Day of Concrete

## Conducting an Effective Pre-Construction Meeting

Join us for a half-day program, hosted by the Georgia Ready Mixed Concrete Association (GRMCA), featuring insights from industry veterans. Our speakers will address the critical elements of an effective pre-pour meeting which will result in a smooth and efficient pour, and the avoidance of costly errors.

**Wednesday, October 1, 2025, 8:30 AM - 1 PM**

**Kennesaw State University, Design 2 Building Auditorium, Marietta**

### Scheduled Speakers

#### **Engineers Perspective**

**Presented By:** Kelly Roberts, P.E., S.E., LEED AP BD+C

Principal & Managing Director, Walter P Moore

An exploration of the critical elements of a successful concrete pre-construction meeting from the engineer's point of view.

#### **Testing Lab's Perspective**

**Presented By:** Shawn McCormick, Senior Project Manager, Material TEC

Insights on preconstruction testing and evaluation, and a discussion about the third-party testing lab's vital role in a successful project pour.

#### **Concrete Producer's Perspective**

**Presented By:** Rick Tilson, Quality Assurance Manager, Concrete Enterprises

This presentation will cover the topic of "Concrete Acceptance Testing". Rick will review how to use the NRMCA Checklist for Concrete Acceptance Testing in conjunction with the NRMCA/ASCC Concrete Pre-Construction Checklist.

#### **Contractor's Perspective**

**Presented by:** Kevin Cox, President, AM Concrete

Kevin will draw upon his many years as a large concrete contractor to explain the critical aspects of the pre-pour meeting that lead to proper concrete placement.

**Cost: \$100 & Includes 4 Professional Development Hours**
