

You're Invited: School Summit Series

High-Performance Construction for K-12 Schools

Join us for our Panama City Florida event focused on the unique needs of K-12 school administrators, district officials and architects specializing in educational facilities. Gain the knowledge, tools and connections needed to create and maintain top-tier school environments that are safe, resilient, sustainable and inspiring.

Where & When

April 16 & 17

Springhill Suites Marriott
12513 Front Beach Road
Panama City Beach, FL 32407

RSVP today and
secure your spot!

These are just a few event highlights:

Witness success stories of schools that have achieved net-zero energy usage, disaster resilience, sustainability targets, and easy, cost-effective maintenance goals

Learn from industry experts about innovation in carbon reduction, building methods, materials and strategies that enable schools to achieve net-zero

Discover how A/E teams overcame challenges during their school construction projects while delivering quiet and innovative learning environments

Experience the ICF environment with visits to local schools that have reaped the benefits

CEUs 5 AIA LU/HSW credits
